KILLER WHALE PADDLE**

\$3,300.00 CAD

Height	59"
Width	12"
Depth	2"
Medium	Red Cedar, Acrylic

***Framed with white background.**

Killer Whales are widely considered clan ancestors. Living in human form in undersea villages, killer whales are often thought to be the reincarnations of great chiefs and are associated with wealth, unity and travel. Some prominent characteristic traits of Killer Whale are a rounded snout, blowhole, a dorsal fin, pectoral fins and a tail.
