

DOUGLAS REYNOLDS GALLERY

SHADOWS

Robert Davidson

\$3,500 CAD

Height	45 1/2"
Width	35 1/2"
Depth	2 1/2"
Medium	Framed Serigraph Print

The concept for this print is based on an old Haida Raven story where voices can be heard speaking from the shadows, but the figures cannot be seen. It is quite a departure from the bright colours we see used in so much of Roberts recent works. The black was screened first with the blue screened on the entire surface of the page. This gives the print a beautifully subdued character, while still providing the visual appeal that is so characteristic of Davidson's abstract works.
