**DON YEOMANS
WELCOME FROG ALUMINUM GATE**

Call for price

Height	88"
Width	35"
Medium	Epoxy Powder-Coated Aluminum

To celebrate our 20th anniversary we approached **Don Yeomans** to make two special pieces for the gallery. The first was the design for the gallery's red aluminum gate, and the second was for a **commemorative bronze edition**. For both pieces Don and Doug chose a frog design. For the door, Don said that he always has liked the friendly look of a frog and sees it as a welcoming figure. For the Bronze, Doug liked the association of Frogs with good luck, which appears in many cultures. On the opening day of his gallery Doug was given a stone that had a frog carved into it. It was meant to act as a door-stop to keep the doors open and bring good fortune (a picture has been included above of Doug on his opening day with the stone).
