"A shaman may be male or female, although male shamans are far more common. The profession is inherited, or sometimes ordained by signs and omens. A shaman functions as a mediator, healer, visionary, guide and counselor. He or she accesses the spirits and essences of things both animate and inanimate, and maintains links between the many worlds of the cosmos" (Shearer 2000: 95) - *Understanding Northwest Coast Art: A Guide to Crests, Beings and Symbols.*
