**JIM CHARLIE
KILLER WHALE PANEL**

\$800.00 CAD

Diameter	20.5
Depth	0.75
Medium	Red Cedar, Acrylic

Killer Whales are widely considered clan ancestors. Living in human form in undersea villages, killer whales are often thought to be the reincarnations of great chiefs and are associated with wealth, unity and travel. Some prominent characteristic traits of Killer Whale are a rounded snout, blowhole, a dorsal fin, pectoral fins and a tail.
