Owls are believed to have great supernatural powers on the Northwest Coast and the White Owl is a family crest in some regions. Owl is associated with wisdom, foreknowledge, and perception, and is strongly associated with the spirit world. Owls have been known to be both Witches in disguise as well as the aids of Shaman in the pursuit of good. Owl can be identified by large, round eyes, sharp talons, a short hooked beak that comes to a V, and pointed ears, which may be prominent to emphasize acute healing.
