THUNDER MOUNTAIN**

\$440.00 CAD

Dimensions	20 × 23 in
Height	23"
Width	20"
Medium	Serigraph Print

Edition /115

Available Framed for \$850

Thunderbird is the illustrious ancestor and crest of many prominent human lineages. Large enough to hunt whales, the Thunderbird is a powerful being associated with power, change and the sky in myths throughout the Northwest Coast. Often depicted with a sharply hooked beak, horns and large ears and is sometimes represented as having teeth.

Human heroes and human-like personifications of sun and wind are common in Northwest Coast iconography. Human faces hidden in other crests reveal the transformative ability of all animals.
