FROG EARRINGS

Alvin Adkins

\$250 CAD

Diameter

1"

Throughout the Northwest Coast, frogs are closely associated with the power of transformation and are the primary spirit helpers of shamans. For this reason, frogs can often be seen emerging from the ears or mouths of creatures that have both human and animal elements. In Northwest Coast mythology the divisions between humans and animals is not clearly defined. Ancestral stories often speak of supernatural beings assuming different forms.
